

# EnerDynamic

## Building Systems Inc.

# EnerSuite

Each unit manufactured completely from EHT EnerTech comes fully equipped with managed solar power, a battery system, and all necessary electrical connections. All units are outfitted with the ability to connect to various power sources and additionally multiple units can be connected to each other to share excess energy.

Due to the versatile design and technology integrated into the EnerSuite the system is easily scaled to fit everyone's needs.

The cozy interior space is perfect for a variety of applications including pop-up style shops, home office space, tiny home communities, emergency housing, meeting rooms, student study rooms, homeless shelters, in law suites and many more, all without the need for an external power source.

During this COVID-19 pandemic the EnerSuite is ideal for in place hospital workers, quarantine units, doctors examination rooms and remote clinics.

The EHT EnerSuite unit has been designed to fit directly into shipping containers to allow them to be instantly deployable upon receiving and there is no assembly required.

## PERFECT FOR ANY LODGING, ANYWHERE

## THE ENERSUITE SYSTEM
